

9 April 1968

MEMORANDUM FOR: AD/D/DCI/NIPE

SUBJECT: My Career Service Designation

1. This memorandum is intended to review the situation about the career service to which I should be attached, as I understand it, and to indicate my preference in the matter.
2. For 15 years I have belonged to the DDI Career Service. Because I am no longer in the DDI, such designation is no longer viewed as appropriate, either by the DDI Career Service or me.
3. The other personnel of the Systems Analysis Group (SAG) of NIPE are members of the DDS&T Career Service. DDS&T, however, apparently feels no obligation to accept me since there is no organizational relationship between NIPE and DDS&T.
4. The "E" Career Service appears to be virtually closed and transfers to it are not being encouraged.
5. These three -- the "E", DDS&T, and DDI -- are the only career services of relevance. Because the NIPE slots are "E" slots, the "E" Service appears to be the most appropriate. The existing relationship between the other members of NIPE/SAG and DDS&T makes the DDS&T Career Service next in appropriateness. The DDI Career Service would be last, the only connection being my past association with it.
6. My preference runs in the order just indicated.
